The Town Council held a special meeting on Monday evening last. His Worship Mayor, Bain, presiding. The councillors present were: Agnew, Davis, Stewart, Knowles, and Johnson.

COMMUNICATIONS.

The following communications were read: John Offord, W. J. Carter, Peter Robertson applying for the position of constable and license inspector; and from Wm. Dickson, applying to be made constable.

REPORTS.

Chairman Johnson, of the Board of Works, made the following report:—

1. That Thos. E. Baker be engaged to confer with the Committee of the Board of Works in drawing specifications on all work to be done and that payment at the rate of \$5 per day be offered.

The council adjourned until Tuesday.

ADJOURNED MEETING.

The council met on Tuesday to hear Chairman Johnson's further report, which was as follows: That T. E. Baker be engaged by the Board of Works for the purpose of inspecting the work to be done and to make out a written report of the same to be presented to the committee on the 15th inst.

BOARD OF WORKS.

1. That report and explanations of T. E. Baker be adopted by the committee and that the same be reported to the council at the next meeting.

2. That Adam McBeath be engaged at the rate of \$3.50 per day as laborer and overseer on work specified in clause No. 1 of the Board of Works Report, and that the chairman and committee of the work be authorized to engage men and good teams to go on such work at the rate of \$4 per day and that they commence work on Monday, 17th inst.

3. That Coun. McPhail be authorized to engage laborers to do the work specified in clause 10 of the Board of Works' Report; wages not to exceed \$2.50 per day.

4. That tenders be asked for to do certain work in the municipality.

The council went into Committee of the Whole to consider applications for constable. The committee rose and reported that Peter Robertson had been selected, and on motion of Couns. Davis and Knowles the choice was made unanimous.

The report of the Board of Works was adopted.

The Chairman of the Fire and Water Committee reported defects in the specifications for the tank. A motion was passed, instructing the committee to have the tank completed in a proper manner.

A motion was passed to have the town take over all sidewalks and keep them in proper repair.

Several by-laws received their third reading and ordered to be engrossed.

## LOCAL NEWS.

The wholesome and refreshing Montserrat and Jamaica Lime Fruit Juices for sale at the Medical Hall.

**THE OPINION OF AN INSURANCE MAN.**

W. A. Dople, manager and secretary of the Manitoba Farmer's Mutual Insurance Co., Beulah, Man., says: "My wife and myself have commenced the use of Nasal Balm and the benefit and comfort derived from it warrants a continuance of its use."

On the evening of the making up of the mail we had occasion to be in the post office just as Mr. Way, the obliging and affable postmaster, was fixing up the registered letters, and we noticed him sealing some of the letters that had been left open by their posters. Mr. Way informed us that every mail he had letters to seal and sometimes as many as ten, and very often letters which contain large amounts of money are left open. It is no wonder people often lose money out of letters when they are so careless in preparing them for the mail. There has never been a complaint made about registered letters from this office, although there is a good deal of "kicking" in other places just now.

FRIDAY, SEPT. 21, 1889.

We congratulate the electors of  
East Assiniboia on their having re-  
turned the Hon. Mr. Dewdney by  
acclamation, as well as upon having  
secured such a representative as they  
have in the Minister of the Interior.  
Mr. Dewdney's entire sympathies  
are and always have been with the  
Northwest, and we can now confi-  
dently look forward to an era of  
contentment on the part of the set-  
tlers, for we feel convinced that the  
new Minister will take prompt ac-  
tion to remedy any defects there  
may be in existing land regulations,  
and will strive faithfully to carry out  
the wishes of the people and to pro-  
mote the welfare and prosperity of  
the country. Although in his former  
capacities of Lieutenant-Governor  
and Indian Commissioner many  
complaints were made against Mr.  
Dewdney, and those politically op-  
posed to him resorted to every con-  
temptible means to asperse his  
character, yet they have never dared  
to prefer one direct charge against  
him, and to-day, after having for  
seven years treated his slanderers  
and vilifiers with the contempt which  
they deserved, he is so popular in  
the Territories where he is best  
known that no one could be found  
reckless enough to oppose him in  
the recent election in East Assini-  
boia.

Yellow fever is raging in Florida,  
and is spreading with amazing rapid-  
ity in that State. The fatality is  
very great.

Last week's papers bring the an-  
nouncement that the last rail has  
been laid on the Red River Valley  
Railway, so that the people of Win-  
nipeg have now a line of railway to  
compete with the C. P. R.

The Northern Pacific has com-  
menced work on the branch lines  
from Winnipeg to Portage la Prairie  
and Morris to Brandon. These  
branches have to be completed by  
November 1, 1889, under the terms  
of the agreements recently entered  
into between the Province of Mani-  
toba and the Northern Pacific Rail-  
way, so that western Manitoba will  
soon have good railway facilities.

With reference to the Regina and  
Long Lake road, in which we are  
more directly interested, the talk is  
still that all necessary arrangements  
have been made for its immediate  
construction to Prince Albert. We  
have not yet heard of any contracts  
being let, and as the season is getting  
late, the probabilities are that noth-  
ing will be done this year.

The Greenway Government do not  
appear to have made a very credit-  
able bargain with the Northern  
Pacific. The railway company ap-  
pear to have got a "soft snap." The  
Government is widely con-  
demned for its action in the matter.  
In the local Legislature, when the  
contract was voted on, Mr. Isaac  
Campbell, M.P.P., and Col. McMil-  
lan, M.P.P., voted against it. The  
Greenway-Martin railway deal is  
condemned by Grits and Tories  
alike, the *Free Press* being particu-  
larly severe in its criticisms of the  
Government.

On Thursday a party of our local nim-  
rods consisting of Messrs. Thos. McKay,  
Sheriff Hughes, T. N. Campbell, W. R.  
Gunn and James McKay, succeeded in  
bagging over 200 ducks in the vicinity  
of Red Deer Hill. During the afternoon  
one of the rigs was caught in a regular  
Dakota cyclone which did considerable  
damage to the backboard, but by the  
abundant use of shaganappi and portion  
of under garments the party succeeded  
in getting it into town. T. N. Campbel  
brought down nineteen teal with one  
shot. Next.

The Harvest Dinner at Island Lake is  
aid of the Methodist Church in that  
settlement was a great success, and the la-  
dies who were instrumental in getting it  
up deserve great credit. The dinner  
was simply immense and was most heart-  
ily enjoyed by everyone present, more  
especially the hungry crowd who were  
from town. The P. A. C. Band were in  
attendance and kept things lively all  
afternoon. The receipts were very satis-  
factory and will go quite a way toward  
building the church. The drive, both  
going and coming, was very merry and  
pleasant.

## GENERAL NEWS.

The delegates to Ottawa to arrange the terms of union of Newfoundland into the Dominion of Canada, who were to have left today, have abandoned the project entirely—at any rate for the present. The reason given is that the existence of the present troubles between the United States and Canada would be likely to prejudice the interests of Newfoundland if she joined the Canadian confederation.

Great damage to the standing crops by frost is reported from many parts of New Brunswick. Whole acres of corn, buckwheat and other crops have been burned. The hay, oats and other fodder crops have sustained equally as much damage from the continued wet weather, which rotted them before they could be garnered.

The Northwest Assembly meets for the transaction of business about the 20th of October. Ross, of Moose Jaw, seems to be the favorite for speaker. The names of members mentioned in connection with the advisory board are Sutherland and Second in East and West Assiniboia; Haultain, for Alberta; Betts, for Saskatchewan. Tweed's name is also mentioned for Assiniboia West.

The Temiscoula Railway Co. expect to open the line for traffic on the 22nd.

The appointment of Mr. Macil as Quebec legislative councillor for Mille Isles is gazetted.

George Dodds, the famous quoiter, who was attacked by paralysis while playing a game, died at Kingston recently.

The Gov. General, Lady Stanley, family and suite left Quebec Monday morning for Toronto.

Edward Baird, of North Fredericksburg, has been asked to pay \$500 or stand a criminal action for assaulting Mrs. Curle, of the same township. Baird says he is the victim of blackmail and wants the case to proceed.

The managers of the locomotive works at Kingston are negotiating with the Government for eighty feet of land purchased for a dry dock. If the land is secured the company will erect a building for the manufacture of steamship boilers.

On Tuesday evening last the band were out doing the town and serenaded Mr. Thos. Swanson at his residence. Mr. and Mrs. Swanson received the boys most courteously and a pleasant time was spent. On their departure Mr. Swanson very generously donated a most handsome sum to the band fund.

Crooks worked the town pretty well last week and succeeded in carrying off quite a number of articles both from outside and indoors. Besides Jas. Moffatt's pocket book they took a piece of carpet and some rugs from Mrs. Hart's; a tent from C. Maie's; broke into Agnew's store house and Harry Peard's dwelling, while the latter was at Duck Lake, but neither Mr. Agnew or Mr. Peard are certain as to what has been taken. If they are same parties who carried off the keg of nails from the Nisbet Academy they had better return everything, as they were seen taking the nails.

### THE GOPHERS.

Early last spring Hill & Mason, of St. Albans, Assa., wrote to Mons. Pasteur, of Paris, France, for a small quantity of the poison which he had recommended for the extermination of the rabbits in Australia, hoping it might be successful in destroying "gophers," the pests of this country, and received from him a most courteous reply. He also sent at his own expense, a bottle containing microbes of chicken cholera, with full instructions for use, which are as follows:—Mix the microbes with soup, allowing the same to lie three or four days to germinate, then mix with meal or shorts. The experiment has been highly successful, and the gentlemen referred to say that they have gained the upper hand of the gopher, and expect no further trouble from them. Large numbers have been found dead, and an examination proved them all to be diseased, whilst a few running around are minus their hair or fur. It is to be hoped that this means of ridding the country of such destructive pests may be taken up by the authorities, seeing M. Pasteur has kindly offered to give further supplies of the microbes should the experiments prove successful.

Commercial. We think the agricultural societies in this district should do something towards the extermination of these pests, and now is the time to begin so that all correspondence will be got through with and the death meal be waiting for the gophers on their first appearance in the spring. This poison may be also good for the destruction of larger animals of the prairie which are of little value, such as wolves, coyotes, etc., but are destructive to sheep and young animals.

### SORE FROM KNEE TO ANKLE

Skin entirely gone. Flesh a mass of dissects. Leg diminished one-third in size. Condition hopeless. Cured by the Cuticura Remedy.

For three years I was almost crippled with an awful sore, from my knee down to my ankle; the skin was entirely gone, and the flesh was one mass of disease. Some Physicians pronounced it incurable. It had diminished about one third the size of the other and I was in a hopeless condition. After trying all kinds of remedies and spending hundreds of dollars, from which I got no relief whatever, I was persuaded to try your CUTICURA REMEDIES, and the result was as follows: After three days I noticed the skin began to grow, and at the end of three months was completely cured. My flesh was purified, and the bone (which had been exposed for over a year) got sound. The flesh began to grow, and to-day and for nearly two years past, my leg is as well as ever it was, sound in every respect, and not a sign of the disease to be seen.

S. G. ALLEN, Dubois, D. V. Co. Ga.

TERRITORIAL NEWS

REGINA.

From the Journal, Sept. 6.

Mr. L. O. Bourget is now sole issuer of licenses for billiard tables for the Territories, vice Mr. R. B. Gordon, resigned.

The first "At Home" under the new regime at Government House will be on Tuesday next, 11th inst., when Miss Royal will be "At Home" from 4 to 6.

A call for tenders for the new Mounted Police riding school at Regina is made. Tenders received up to the 25th Sept.

People driving through rural districts say the welcome sound of the reaper is to be heard on every side, by night as well as day. A gentleman just come in from the Valley reports a crop in one instance so heavy that a yoke of oxen in addition to the horses is necessary to cut it.

Till this morning the last rain which the country has seen was on the 17th ult. Since that date the most desirable weather has prevailed, clear and mellow, thus not alone effecting the most important result, that of bringing the extensive crop to maturity, but also of giving to the farmers subsequently the desired, and no doubt embraced, opportunity of pushing their harvest operations and gathering in the rich production of our prairie soil.

From the Leader, Sept. 11.

Mr. Macdonald, of the *Mark Lane Express*, is visiting the Crofter Settlement to-day. He and Mr. Urquhart called on us this morning. Mr. Macdonald would be glad to receive from representative farmers, for publication in England, an account of the country—especially the cost of producing wheat from the first putting in of the plow. Our leading farmers should write to Mr. Macdonald at once; address him care of The Leader office, Regina.

On Saturday night there was a joint meeting of the Board of Trade and Town Council and arrangements made to receive the farmers, of the coming excursion, properly. The Mayor and Mr. Mowat telegraphed this morning making arrangements.

FORT MACLEOD.

From the Gazette, Sept. 6.

It is probable that arrangements will be made to establish a telephone exchange at Macleod.

The Indians were started out of town on the gallop by the police last week. It is to be hoped that this commendable raid against these nuisances will be repeated every time a lodge is located near town.

What might have proved a disastrous fire took place at the eastern extremity of the town on Tuesday night, or rather at about 1 o'clock on Friday morning. Frank Fountain's hay stack, containing about ten or twelve tons, caught fire, and it and a small stable near by were burned to the ground. A number of citizens turned out, and the police fire brigade with their engine, were promptly on hand, but all efforts to save the stable or stack were useless. If a high wind had been blowing toward the town, or the fire had started at the west end, during one of the prevailing west winds, the results might have been most disastrous. The cause of the fire is unknown.

CALGARY.

From the Herald, Sept. 5.

Talk about harvest weather! It is difficult to remember what cloudy weather looks like.

Does not the duck shooting season appear to open too early? This year ducks will be "flappers" for some weeks yet and a large number of these helpless ducklings are being shot, if report speaks truly.

An auspicious day in the history of Calgary and Alberta was the 31st day of August, 1883. Forming an epoch in the literary, religious and commercial life of Fort Calgary, as the place was then called, will long be remembered by those who were present and saw the first number of the *Calgary Herald* drop from the rollers of a small hand press, in a tent by the banks of the Elbow river.

From the Tribune, Sept. 5.

The Pine Creek Agricultural Society held its annual meeting Friday night at Sandy Watson's when the old officers were elected. There will be a membership of between seventy and eighty. Sheep Creek hold their annual meeting to-night.

QU'APPELLE

From the Progress, Sept. 6.

There is a movement on foot in town to get up a reading room and library association.

There was a heavy rain last night, but as the sun is now out strong again it is not expected to do any harm to the grain still unharvested. As the ground was becoming dry the rain will do good to roots and garden stuff.

Work was begun this morning digging a hole for a tank to hold 100 barrels of water. The work is being done under direction of the Board of Trade as a part of the system of fire protection for the town. The tank will be on the southeast corner of the intersection of Qu'Appelle street and Ninth avenue.

It is reported that the proposed banquet to Mr. Dewdney, at Regina, has been declared off, is incorrect. It has only been postponed to a later date which has not yet been agreed upon.

From the Vilette, August 30.

Harvesting is nearly completed in this neighborhood, and the general report is that the averages will be good.

Lieut. Governor Royal has decided to occupy a couple of rooms in the Regina courthouse for a certain time every day, so that he may be more come-at-able by the public. A good idea.

EDMONTON.

From the Bulletin, Sept. 1.

Grain was being cut at Lesser Slave Lake on August 15th.

Butter sells at from 25 cents to 35 cts. per pound and eggs at from 30 cents to 40 cents per dozen.

F. Sacke, south side, has a crop of wheat that will be ready to cut next week which a competent judge estimates will yield sixty bushels to the acre.

Reported that a small band of buffalo were seen southeast of Selva settlement, on the Battle river, a week or so ago and that hunters succeeded in killing one.

Hay sells at \$8 per ton in town and \$4 in the stack. Notwithstanding fears expressed a few weeks ago, there is an abundant supply which is being secured in good shape. The grass is still in excellent condition for being made into hay.

J. P. Smith has purchased the portable piler belonging to the geological survey, which has been lying at Battleford for some years past, and will use it to run a grain crusher. It was brought up from Battleford on the Minnow.

LETHBRIDGE.

From the News, Sept. 5.

The fall meeting of the Southern Alberta Turf Club takes place at Macleod on Thursday, Friday and Saturday, Sept. 20th, 21st and 22nd. One thousand five hundred dollars in prizes will be given. The races will be run under the Canadian Turf Association Rules and are expected to be the best races ever held in the Northwest.

On Monday evening last as the night shift of men were going to work in the shaft, Mr. Stafford, superintendent of the mines, was present and went down with them to see how the work was getting on. When within about thirty feet from the bottom he discovered the smell of coal damp and lowering his lamp a short distance it was instantly extinguished. He immediately ordered the men back to the surface and stopped the work until necessary precautions were taken to get rid of the foul gas.

The following is an account of an evening's entertainment at Butte City, Montana:—"A gorgeously furnished room all ablaze with gas jets and glittering with polished glass and mirrors, filled with a motley crowd of gamblers, miners, rounders and a sprinkling of the fair (and frail) sex. Such was the sight that met my view a few evenings since when I strolled into a saloon to witness a glove contest which was advertised to take place in a large room in the rear. A card room intervened between the two above mentioned from which there shortly issued a man in a tremendous hurry followed by another, in whose hand gleamed a beautiful revolver. Several shots were heard, a knife glistened in the hand of the pursued man as he stood at bay, and a duel to the death began. A few seconds and all was over, the man with the gun had received his death wound, the man with the knife was uninjured, and an unoffending bystander was cut almost in two, his entrails reaching almost to his feet. Both men died shortly after and the man with the knife was locked up. It has since transpired that he wore a shirt of mail or else he too would have passed in his checks, as three distinct bullets struck him fair in the breast and he never winced. It is doubtful if he can be convicted as he only defended himself.
